

Interpretation by Stefano Soddu:
BACCU MANDARA

The sea is grey, the sky yellow.
A piece of sea evaporates in the sky
and obscures it with triangular projection.
Like a kite, waiting for the rain.

Technical data B'A Panels page II

The Brem'Art panels are built with a thickness of only 2,3cm. The valves can be hidden thanks to the higher cover.

The connections behind the cover allow the thermostatic head, partially visible, to operate by detecting the room temperature.

The electric version is produced with heights 180 and 200 cm and a protrusion of only 5.8 cm because of electrical devices.
