

Nostos creates a warm and welcoming feel, designed to act as a multi-sensory link between everyday objects and people's most intimate experiences.

A metaphor for a personal journey exploring the relationship between space and home. In fact, the artist defines Nostos as the archetype of Odysseus' own "homecoming", as the story of an unpredictable journey, capable of changing the aspects of life.

BREM'ART CREATIONS (page I)

Technical data B'A Panels page II

Panels: BREM'ART

The Brem'Art panels are built with a thickness of only 2,3cm. The valves can be hidden thanks to the higher cover.

The connections behind the cover allow the thermostatic head, partially visible, to operate by detecting the room temperature.

The electric version is produced with heights 180 and 200 cm and a protrusion of only 5.8 cm because of electrical devices.
