

Dedicated to the greatest antique greek hero, Scudo di Eracle is made of copper by the artist for BREM'ART. Antonio Pizzolante, with his own hands, creates the shield of Heracles out of copper; once again the artist joins together form and function, beyond the time.

SCUDO DI ERACLE (H 98 x L 28cm)

The artist suggests the plate in SB 0022 sablé rust nuanced color.

Note that this color nuance is not repeatable and has stains and tons always different, that make it unique.

BREM sablé colors paintworks without extra.

RECOMMENDED VALVES (pag.II)

CHROME VALVES KIT with:
n°2 Valves with tang, n°2 Fittings (multilayer ø16, copper ø12, 14), n°2 wall plates ø 48, hole ø16

STANDARD FITTING EG ø 1/2"
Tapping centres ▲▽ L - 15 cm
Special fittings page 278

- REMOTE FITTINGS con REMOTE Valves p.274

Panels: BREM'ART

The Brem'Art panels are built with a thickness of only 2,3cm. The valves can be hidden thanks to the higher cover.

The connections behind the cover allow the thermostatic head, partially visible, to operate by detecting the room temperature.

The electric version is produced with heights 180 and 200 cm and a protrusion of only 5.8 cm because of electrical devices.
