

VIRGO, with its surface graved by nearly signed furrows, creates a minimal decoration inspired by nature. Splits crack like cuts the surface producing discontinuities and revealing the inner core of the radiator.

Each piece is hand-made, than unique.  
Sablé standard colors at choice, satinated colors for the furrows, other colors on request.

## BREM'ART CREATIONS

Sablé gray SB9006 finish, parallelepiped in relief gray and red color.

Other sablé colors Brem without extra

Other Ral colors in the sablé finish only on request.

Technical data B'A Panels page II

# Panels: BREM'ART

The Brem'Art panels are built with a thickness of only 2,3cm. The valves can be hidden thanks to the higher cover.

The connections behind the cover allow the thermostatic head, partially visible, to operate by detecting the room temperature.

The electric version is produced with heights 180 and 200 cm and a protrusion of only 5.8 cm because of electrical devices.
